EVANGELIST STILL SPEAKS

In the study on the spirit of prophecy, Evangelist M. A. Hollister pointed out a number of interesting features, such as the fact that it is the words of Jesus to his servants, Rev. 19:10, Rev. 1:1, and that those words are from God, Rev. 1:1 and John 3:34. In Neh. 9:20-30; 2 Chron. 15:1-3, and 20:20, we learn that the prophet of God will always teach obedience to the law of God. Then the speaker said that the gift was necessary in order to prove the authenticity of the Bible and referred to Isa. 7:14, Matt. 1:18-23, Dan. 8 and 9; the prophecy of the 2300 days, Isa. 44:28, and 45:1-6, Luke 24:44, as a few instances of the use of the gift. The way the gift came into the church the speaker said was by God placing it there, and by the spirit himself not by any man power, and read in support of this statement, 1 Cor. 12:3-11, and 28, and Eph. 4:11-14, 1 Pet. 1:21, then to prove the gift should be in the last church, he read Rev. 12:17, 1 Cor. 1:4-7 here it is pointed out that the devil is particularly mad at the remnant church because they keep the commandments of God and have the testimony of Jesus, according to Rev. 19:10, the testimony of Jesus, is the spirit of prophecy, hence we can see why the devil is mad, for the prophet of God teaches the remnant church to obey the commandment of God, all ten of them, not 8, or 9 but 10, and that makes the devil mad.

In order that we should not be deceived by a false prophet, the Lord gave some tests found in 1 John 4:1-3, Isa. 8:20, Deut. 13:1-5, 1 Cor. 14:37, in these we learn again that the law plays a very important part for we are to use it in testing the prophet and any one who does not keep the law himself and teach it obedience to false, and also he must fit certain requirements while in vision, viz.: loses his strength, will not breathe, sees an angel, the angel will touch him, he will be strengthened, and then talk, Dan. 10:17-18 and according to Num. 24:24 will have his eyes open also. A false prophet may meet some of these requirements, but not all; while the true prophet will meet every one, and at a time when the tests may be made.

MISS SHIPP IS WELL RECEIVED

The concert given in the Tabernacle on Monday evening by Miss Lillie E. Shipp and the Tabernacle choir, was certainly a success. A large and appreciative audience was present. The smooth, sweet, rich well cultivated voice of Miss Shipp captivated all present.

AMALGAMATED COMPANY WILL BUILD FACTORY

Decide to Erect Sugar Factory in the Alta District. Meeting Held With Farmers

The officials of the Amalgamated Sugar Company, visited the Alta district west of Smithfield yesterday and at a meeting with the farmers and land owners of that vicinity, advised them that they now had assurances of seed supply for several years and were ready to build a sugar factory. They also announced the good news that as a matter of facilitating the delivery of beets, they would extend the interurban railway, south from Kent's Spur at Lewiston to a point near Benson, work upon same to begin at an early date.

This movement will open a comparatively new territory and contribute a great advantage to the farm operations of the community, and add materially to the value of farm lands to be traversed by the railroad.

Vice President, Joseph Scowcroft; Secretary, Fred Taylor, with local representatives M. S. Eccles and W. W. Low, and Merrill Nibley, of the Utah-Idaho Sugar Company, who represented the church interests, went over the proposition very thoroughly before making the definite announcement, and Mr. Taylor remained over to inspect or select tentative factory sites, with the committee appointed for that purpose.

This makes another long stride in industrial supremacy for Cache, which is being nationally recognized as one of the richest valleys in the world, and needless to say the people will lend hearty support to the enterprise.

The committee appointed to select the site for the proposed factory consists of P. P. Bingham, Chas. G. Wood, W. G. Raymond, George Y. Smith and Howard Reese.

WEALTHY OGDEN PHYSICIAN SHOT DOWN BY FARMER

Assailant Fired Without Warning Three Bullets Into Surgeon's Body

Ogden, May 2.—Dr. C. F. Osgood aged 48, one of Ogden's wealthy residents and a well known physician and surgeon was shot three times and killed at 5:50 o'clock this evening as he sat in his automobile in front of the Commercial National bank in Twenty-fourth street.

The slayer is Heber Burch, aged 34 years, who declares he killed Dr. Osgood because of a careless operation performed by the surgeon on his head in St. Louis, Mo., in 1894. Whether Burch is insane had not been definitely established tonight.

Burch was arrested a few feet from the scene of the shooting by Robert Paine, special police officer. At Paine's request Burch gave up his revolver and submitted peacefully to arrest. He is confined in the city jail.

Police say they believe Burch is concealing the real motive for the killing. Physician friends of Dr. Osgood say there can be no truth in Burch's story of the operation. They declare Dr. Osgood was not admitted to practice until 1897.

Know of Operation

Several brothers and other relatives of Burch declare they know of no operation performed upon his head. They say Dr. Osgood treated Heber several years ago, when he was accidentally shot in the hip.

Neighbors living near the Burch ranch, which is one half mile south of the city limits in Riverdale road say Heber Burch has been acting queerly of late and that his relatives had discussed having him examined to determine his mental conditions. His brothers tonight would not discuss this phase of the situation.

FRED TAYLOR'S FAME AS ORATOR IS EXTENDING

Fred Taylor, that genial gentleman who once resided in Cache Valley and won the hearts of our local citizens to the extent that we nearly made him a legislator, is again back with us working with the Amalgamated Sugar Company interests in promoting the erection of a new factory in the Alta district west of Smithfield.

Mr. Taylor's fame as a man of considerable ability as an orator of note, is not confined to Cache. The Ogden Examiner, the early part of this week had the following to say editorially of Mr. Taylor as an after dinner speaker:

When the Amalgamated Sugar Company induced Fred Taylor to cut out the talk and get down to the prosaic routine of business they nipped an oratorical genius in the bud, deprived the public of a supreme joy and left a page in history blank that otherwise might have been illumined with tributes such as would have made the archives of the Roman forum mighty dull reading. For Fred Taylor started out with a large portion of the stuff that put William Jennings Bryan, Cicero, Demosthenes and other great orators on the map.

When this man, Taylor, cast his lot among the sugar beet fields of Utah and Idaho, the sweet spell of a gentle, penetrating voice inspired by noble thoughts, was alienated—the platform took on mourning that the desert might rejoice and blossom as the rose. But suppressed genius, like the first pure dove of a lonesome man, will occasionally burst the ties that bind and stir the hearts of men in the most unexpected places. Like the night blooming cereus, the Taylor flower of oratory occasionally casts its spell and holds its audience enthralled, enraptured and forever wishing that the sugar industry was one long never ending speech to which we all might listen.

But through all these years Taylor has succeeded in keeping his oratorical powers a secret, except to a few favored friends, whose good fortune it has been to be among the select when the spirit moved him. Now that the secret is out, we expect to see Fred Taylor develop in to a well fed, partly after dinner speaker, for he is too generous a gentleman to turn down all the invitations that are bound to come to him.

ATTENTION IS BEING GIVEN COUNTY ROADS

Wednesday evening the National Park Highway committee of the Commercial Boosters Club met with the Wellsville and Smithfield city councils and asked for their portion of the general expense to advertise the highway through Cache Valley. The council at Richmond will be visited for the same purpose. The committee at Preston will look after securing the necessary funds from that section of Idaho. Each town along the route will pay according to the population it has.

The Wellsville canyon road was made passable yesterday and the people in Preston and Dayton are working hard to get that part of the road in good condition. In a very short time the road through the entire Cache Valley will be excellent for travel. The road is being advertised very extensively by large metal signs which will be placed between Salt Lake City and Brigham, calling attention of the tourists to the beautiful Cache Valley route. Similar signs will be placed at McCammon and other northern towns. Mr. A. M. Stewart, chairman of the advertising committee has worked very faithfully and energetically in getting the signs made and placed and the special log compiled.

Optimistic Thought.
